Neopost Online Services: You Never Work Alone

Online services

Neopost Online Services (OLS) maximizes the DS-65's production availability. Thanks to proactive maintenance, problems can be prevented or solved faster. Its user friendly capabilities will enable regular as well as occasional

users to maintain mail processing at the highest level while enjoying the full support of the Neopost service team.

A highly-skilled team

Neopost has a dense network of skilled professionals available to help and guide you on using the DS-65 and its functions. Our technicians are trained on all our mailing solutions and are ready and happy to help you, on the phone, onsite or online.

Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful – offering you a competitive edge that will open up a wealth of business opportunities.

Fold, Insert and Seal in One Seamless Process

Combined with our mail management software, the DS-65 is the perfect solution to address any type of transactional mail or direct marketing campaigns.

Make your mail intelligent

The DS-65 enables to add an intelligent code to every mail piece using OMR or BCR marks, and therefore adapt content to every recipient. Moreover, with its multi-envelope print batch module, significant postal savings can be made.

Process your intelligent mail automatically

The DS-65 uses an exclusive CIS scan technology. It provides full flexibility to print the OMR or BCR codes anywhere on the documents. This ensures full security and integrity of envelope content.

Commitment to the Environment

The DS-65 carries Neopost's Eco Label and is compliant with environmental regulations.

The automatic standby mode saves 50% on annual energy consumption and its low-weight, compact product design (25% lower than a comparable inserter) means a lower carbon footprint.

Carbon footprint is also significantly reduced by the fact that the DS-65 boasts efficient packaging design which reduces transport volume and therefore the number of trucks and containers required.

“Your business will see a very rapid return on investment, not only in regards to increased efficiency on day-to-day tasks but also thanks to this extremely effective direct marketing tool.”

The Smart Compact and Easy-To-Use Mail Solution for Everyone

The Complete Document Process

1 With our output management software, make your mail intelligent by adding barcodes

2 With OMR/BCR scan technology on DS-65, securely process your intelligent mail automatically

3 Optimize postal costs and expand your business opportunities

The DS-65 helps you develop your business. Thanks to its flexible feeders and reading intelligence you can add any personalized material to your regular transactional mail. It also enables you to easily create a full marketing campaign including flyers, coupons, or business reply envelopes.

	<p>1. Automated Stacker</p> <p>The exclusive high capacity envelope stacker is designed to improve accessibility and unloading of envelopes on the fly.</p>		<p>4. Daily Mail Feeder</p> <p>The dedicated daily mail feeder enables to manually feed mail of variable content.</p>
